DESCRIPTION

Freehold Development

- As most buildings in KL city centre are high rises, it is indeed rare to find a FREEHOLD 7-storey mid-rise office tower that comes with a gross floor area of approximately 108,880 sq ft.

Excellent Accessibility

- Apex Tower is located at the main southern gateway of Kuala Lumpur city centre and its strategic location allows easy access via major highways.

Superb Visibility

- With more than half a million passing traffic daily, Southgate is the landmark-status location for establishing corporate headquarters.

Growth Potential

- It is an upcoming area for new commercial developments and close to Bandar Malaysia - The urban redevelopment of the old airport in Sungai Besi.

Public Transportation

- The Chan Sow Lin LRT station is just a mere 0.7km away, bus and taxi

services will be available at the doorstep. There are also upcoming MRT stations to be constructed nearby.

Smart Investment

- Apex Tower has secured approx. 85% occupancy with monthly rental income about RM250K and with the remaining space of approx. 10,000 sq ft. Expected return of investment about 6.5% yield per annum.
